

EIGHT WAYS E360 TEAM MEMBERS ARE LIKE NINJAS

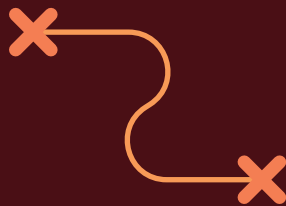

They can shimmy up a truss to hang signage in the blink of an eye.

They can simultaneously conquer a registration emergency and fix a broken speaker, all while smiling for the client.

They can twirl a Leatherman around with more force than nunchuks.

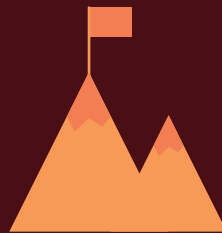

They can stealthily and silently navigate a site in less than a minute.

They rock an event uniform better than a black shinobi.

They treat each task—simple or complex—like a covert operation.

They never ask why, they just commit to the mission at hand.

They might seem faceless and nameless, but they Get. Stuff. Done!
